

Ask Cinderhaven — Where is my trade spend going?

distressed scenario — figures reconcile to Trade Spend Data Diagnostic

Where is my trade spend going?

**Trade spend looks controlled: 12% of deductions are unplanned, within the 25% ceiling.
Total manufacturer promo investment: \$0. No structural leakage detected.**

within range

Key numbers

\$1,332,704	Total deductions
12%	Unplanned share compliance, shortage, damage
\$0	Manufacturer promo spend

How this verdict was reached

Unplanned = compliance + shortage + damage + post-audit deduction types. Fires when unplanned share > 25% of total deductions. Uses distressed scenario — full deduction universe including expired and disputed. Thresholds from Trade Spend Diagnostic.
