

Ask Cinderhaven — Is my product data going to break at Walmart?

baseline scenario — figures reconcile to Product Data Health Audit

Is my product data going to break at Walmart?

20 of 50 SKUs (40%) have data errors that will fail a Walmart GDSN submission. Worst field: Dimensions with 19 errors. Do not submit until these are resolved — a failed GDSN sync delays item setup by weeks.

do not submit

Key numbers

20 of 50	SKUs with errors
40.0%	Critical error rate
Dimensions	Worst field
	19 errors

How this verdict was reached

Critical fields: GTIN-14 (14-digit numeric), UPC (12-13 digit numeric), case weight (> 0), case dimensions (all three > 0). Do-not-submit threshold: $> 5\%$ SKU error rate. Warning: $> 2\%$. Thresholds from Product Data Health Audit.
